The screenshot shows the Windows Server 2022 File Server Resource Manager (FSRM) console. On the left, the 'Shares' tree is expanded, showing the 'metalri.by' domain. The center pane displays the 'Active Directory Users and Computers' window, which is open to the 'Users' folder. A 'Select Groups' dialog box is open, allowing the selection of groups from the 'metalri.by' domain. The dialog shows 'clients' as the selected group. The right pane shows the 'VOLUME' properties for the 'E:' drive, indicating 8.05 GB of space, with 35.9 MB used and 8.01 GB free. A message at the bottom states: 'To use quotas, File Server Resource Manager must be installed. To install File Server Resource Manager, start the Add Roles and Features Wizard.'
